This wall lamp supplements our *cubic gates* collection and it is available in 2 different sizes. The shades are offered in 12 different fabric colours - easily installed on a white powder coated mounting box. Nearly floating a little distance away from the wall, it disperses the light mainly to the top and the bottom. In addition, you can choose from various sizes and alternative electrifications.

A pendant light 2in1 convinces with its strong contrasts. 12 fabric colours - mostly silks are combined with a square frame made of coated steel or wood. The cable is not concealed but accentuated. A solid aluminium canopy on top of the lamp provides it with the finishing touch. It is perfect for illuminating a long dining or conference table.

This pendant- or ceiling lamp is part of our collection *cubic gates*. It comes in 2 different sizes: 50 and 75 cm. The shades are available in 12 different fabric colours - easily mounted with magnetic clips. The satin-finished diffuser at the bottom disperses the fluorescent light pleasantly soft. In addition, you can choose from various sizes and alternative electrifications.
