switching	external
protection class	II
mechanical rating	IP20
rated voltage	220-240V, 50/60Hz
light source	E27 Med max. 60W 
optional	customized colours

A pendant lamp - particularly designed as counter lighting but also for the living area, creating a perfect accent. Rhythm, asymmetry and tension are the key players. The kink develops the basic thought of form. It creates a body of light and shadow. The shade, made from light-grey chintz, is supported by high-quality details, like a silver-grey textile cable and an aluminium canopy.
