

# kons\_p

pendant & mounting lamp  
design filumen, 2018

model	kons_p 25	kons_p 35	kons_p 46
dimensions (dxh)	Ø25x11cm	Ø35x14cm	Ø46x16,5cm
materials	textile shade, aluminium canopy, textile cable		
weight br / packing vol.	1,1 kg / 0,01qm	1,8 kg / 0,03qm	3,4 kg / 0,07qm
suspension	max. 200cm	max. 200cm	max. 200cm
protection class	I	I	I
mechanical rating	IP20	IP20	IP20
light source	AC LED Modul	AC LED Modul	AC LED Modul
LED 230V	2200 lm   3000 K	3300lm   3000K	4400lm   3000K
light source	DC LED Modul	DC LED Modul	DC LED Modul
LED DALI	2000lm   3000 K	3000lm   3000 K	4000lm   3000 K
options	fire protection class B1 for all sizes possible customized materials and dimensions		

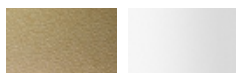

The KONS shades are built quite flat, thanks to the driverless AC LED tech inside. While the matt gold structured foil lining provides a warm glow the translucent white version lets the four chintz fabrics glow. The KONS is available as both ceiling mounted or pendant lamp with a grey fabric cable. A light gap on the top makes the lamp appear lighter. The pc foil diffusor below can be taken out without tools. The phase dimmer of the LED module provides a central three-core supply. Obviously we customize the KONS for the contract market as well. Additionally, the lamp can be equipped with a low voltage DALI dimming in which case the 5-core supply swings around the central weight-bearing steel cable.

## shade outside

coffee stone grey olive flamingo

## shade inside

gold white
